Processor Setup

Changing or Setting Up Processor

Below are instructions for changing or setting up your processor.

If you are requesting a processor change and the partner on your account is not PayPal, VeriSign, or CyberCash, you must contact your existing Partner/Reseller to verify that the processor can be changed. Some processors are also resellers of the Payflow service and changing the processor can cause your existing account with PayPal to be cancelled.

If you change to a different processor, you will no longer be able to perform credits on transactions done through your old processor. In order to perform credits, you will be required to enter these as new credit transactions either programmatically or manually using PayPal Manager.

Additionally, all transactions that were authorized using your old processor must be captured before changing processors.

For additional questions, contact PayPal Customer Service at payflow-support@paypal.com.

Perform the following steps to change and/or set up your processor information with PayPal:

1. Contact your merchant bank to obtain the processor that your account is using. The following processors are compatible with PayPal at this time:

- [American Express](#)
- [Electronic Checks \(ACH\)](#)
- [First Data Merchant Services \(FDC\) Nashville](#)
- [First Data Merchant Services \(FDC\) South](#)
- [First Data Merchant Services North \(CardNet\)](#)
- [Global Payments East \(NDC East\)](#)
- [Global Payment Central \(MAPP\)](#)
- [Heartland](#)
- [Litle](#)
- [Merchant e-Solutions](#)
- [Moneris](#)
- [NOVA \(Elavon\)](#)
- [Paymentech - Salem](#)
- [Paymentech - Tampa](#)
- [SNET - SecureNet](#)
- [TSYS \(Vital/VisaNet\)](#)
- [Vantiv](#)
- [WPAY - World Pay](#)

2. If this is a request for a processor change:
 - Ensure that all transactions authorized on the old processor have been captured or submitted for settlement. Once the processor is changed, any transactions authorized under the old processor that have not been captured will need to be re-authorized under the new processor.
 - Fill out and print the [Processor Change Billing Information](#) form on page 5.
3. If this is a request for a processor change, **or** you are setting up a new account, see the appropriate processor information form (in the following sections) for information needed to set up the processor. Fill out the requested information for your processor. All information marked with * is required.
4. If this is a new account, fax the completed processor information form to 303-395-2851. If this is a request for a processor change, fax the completed processor information form and the processor change billing information form to 303-395-2851.
5. Once PayPal Customer Service updates your account, you will receive a confirmation by email. Any changes done to the account will take effect after the top of every hour.
6. It is highly recommended that you perform a “test” transaction on the live servers using a personal credit card to verify that the information is correct at both PayPal and your merchant bank.

To perform a test transaction:

- a. Log in to PayPal Manager at <https://manager.paypal.com>.
- b. Select “Virtual Terminal” from the toolbar.
- c. Select “Single Transaction”. Select “Test” in the Transaction Mode field. Refer to the online help on PayPal Manager for instructions on performing a transaction.
- d. Enter \$1.00 for the test transaction, and click **Submit**. You should receive a result code of “0” and a response message of “approved”.

If you have any problems with processing transactions:

1. Contact your merchant bank to verify the processor information.
2. Contact PayPal Customer Service at payflow-support@paypal.com to verify the processor information.

If you have any problems with receiving funds at your commercial (checking) bank:

1. Verify that the transaction(s) have settled. Look at the detail record and see if a Batch ID number was issued.
2. Contact your merchant bank to verify the routing and account number on file.

Processor Change Billing Information

This form is applicable only if you are changing your existing processor, not for new accounts. Before any changes can be made for your processor, this form must be filled out and faxed to Payflow Customer Service at 303-395-2851. Once the billing has been completed, your account will be updated per the information entered on the processor set up form.

Company Name: _____

Login ID: _____

Case Number: _____ **(required)**

Select the type of your account and amount to charge for the processor change request:

Payflow Pro - **\$149** per account *

Payflow Link - **\$49** per account *

* Fee will be applied for each account that is changed.

Charge current billing information on account
